The property is completely private, with nobody overlooking the walled and tiled garden. It has large seating areas, dining areas, a snug, all leading in the large expansive garden. There are many outhouses for office space or extra accommodation. The house is heated with gas oil filled radiators...the gas oil is stored at the back of the garden. There are 2 entrances back and front. Loads of marvelous valencian features, tiles, ceilings, cupboards, beds, bathrooms, all in the Valencia Style. Marvelous as a large family home and for bed and breakfast or small hotel.
